Dear Dr Elias

Agenda for the meeting at MCT, Brasilia 28-30 November 2011

The official entrance of Brazil in ICRANet implies a more important role of partnership with all Members. We are envisaging a parallel development of activities in Europe, South and Latin America, with a central role of Brazil and Italy. Being a full member of ICRANet Brazil shares all the properties, already acquired by ICRANet, including the Seats in Rome, Pescara and Nice, and it's expected to have a strong collaboration for all future activities and expansion especially in South and Latin America.

This meeting is particularly important in view of the forthcoming activities: 1) Meeting of the Scientific Committee 18th-19th December 2011, in Washington; 2) Meeting of the Board at the beginning of February 2012, in Pescara; 3) Election and nomination of the President of the ICRANet Board at the next Board meeting in Pescara.
